Sales of Autographs of Notables to Buy Tobacco for A. E. F.

Various companies of the Twenty eixth Infantry who are in Germany have en sending back acknowledgments of sbacco gifts to the donors of THE SUN chacco Fund and to the fund itself. When the cards of the former are enlosed with a package of cigarettes or noking tobacco the soldiers are keen to send their thanks direct to the contributors, but when these are missing they address the fund. B. J. Lester of Company E. Twenty fixth Infantry, writes as follows from Hellenrod, Germany:

"Well, well, here THE SUN IS again and very welcome, too. Some of us who don't expect to get back to the States until Germany has published all her books to prove that China started the war were wondering if our own folks would get busy and send us something to smoke when our 'old faithful' gets on the job again. Thank you, Sun Tobacco

'And speaking of the way our wives and sweethearts do not send us tobacco how are they to account for their remissions when we get back home? The way we account for it is this: When we were first over here and begging for tobacco in the shape we liked it, wives and sweethearts could not get any across owing to the stringent postal regulations.
Then we depended entirely on THE SUN, and it did its duty wonderfully when you consider how big was the family it caused to. Now that the regulations are omewhat relaxed our relatives have go out of the way of trying to get tobacco over to us and still leave it to THE SUN to do. It's all right, for THE SUN Toacco Fund can be relied on."

Representatives of the employers sub-sequently declined to meet with a com-nittee of union men to discuss the quesion of collective bargaining, the em-ployers insisting that the problem of sympathetic strikes must be settled first. It was agreed that a conference com-mittee should be appointed by Mayor Gray in an effort to solve the problems presented by sympathetic walkouts of public utilities employees. Meanwhile representatives of the railway brotherhoods indorsed the principle of sympa-thetic strikes and urged that the ques-

tion of union recognition be kept in the foreground until it was obtained. Commercial activities were rapidly approaching normal to-day, except for the postal and street railway tleups. Res-taurants opened with non-union as well as union employees. Telephone service

Winnipeg citizens have transmitted a formal protest to the Federal Government regarding the embargo on mail. The protest demands that the Government resume mail service with Winnipeg

Protests have been sent by heads of at least two local unions to their international headquarters, charging that certain unions were forced to join the sympathetic walkout, despite the fact that such action was not constitutional.

City and Federal agencies to-night were endeavoring to draft recommendations for the settlement of the general strike. Mayor Gray conferred with leaders and announced that he would appoint a committee of ten or twelve persons, representing all factions to discuss the strike problem. Federal officials

The Sun

Introducing Next Sunday's Principal Speaker

Ladies and Gentlemen: We shall have with us in the Sunday SUN Magazine a plain, hard-headed, common-sense Yankee, who by dint of hard work has made for himself an honorable position in his home town, and whose name is occasionally heard outside it-even as far outside it as New York, Vladivostok or Timbuctoo.

His Family Bible age is 72, his arterial age (so the doctors say) about 40. He used to work twenty hours a day, but now, having prudently saved his earnings and laid by a little competence, he takes life easy and only works eighteen.

He doesn't often consent to speak in public, but when he does mankind listens, recognizing in him a useful toiler-a sort of tinker and experimenter-who does odd jobs that help his fellow men.

They have him to thank for the electric light bulb, the talking machine, practicable telephones, stock tickers that tick, "poured" houses, multiple telegraphy, the first good working electric railroad, storage batteries, and three or four or a hundred other things without which the world would be poorer and less comfortable and happy.

Long ago his own countrymen took to calling him "The Wizard." He doesn't much like it-says "Shucks!" to such tributes-but "Wizard" he remains. Twice when the United States was on the verge of war the eyes of multitudes turned trustfully to him, looking to his ingenuity to save the nation if dire peril should come.

That showed how they felt, and feel about him.

His name (not to keep you in bewildered suspense) is

Thomas Alva Edison

and he will tell Sunday SUN readers what he thinks of

Its furtherance of the Brotherhood of Man-

The war's effect on the energies of na-

Its demonstration of the Golden Rule-The need of better citizenship-

The need of better government, which he says the world will demand-

Prohibition--

Tariff revision-

Anglo-American friendship-

"The Almighty Dollar"-

The Labor Situation and the International Labor Programme—

And several other vital topics on which every reader will want to hear from this great man, who always has something to say when he talks, and knows whereof he speaks.
